

PQA Measure Update Panel: Self-Nomination Information for the 2027-2028 Term

New Measure Update Panel (MUP) members will be selected to serve a two-year term (2027-2028) for a limited number of available seats. Selection will be based on an individual's experience with PQA-endorsed measures; familiarity or past involvement with PQA's process for developing and maintaining quality measures; and/or other relevant expertise (e.g., clinical, analytic, quality measurement, quality improvement). The selection of MUP members will also consider the need for balanced stakeholder representation. It is unlikely that more than one individual from the same organization will serve on the MUP at the same time. Current MUP members finishing their first term at the end of 2026 may apply for a second term.

The MUP is a standing PQA panel that meets monthly, or as needed, via Microsoft Teams. The two-year term will begin January 2027, with an expected time commitment of 24-32 hours per year, including meeting time, preparation, and electronic voting.

MUP Objectives:

- Ensure that PQA-endorsed measures continue to align with current clinical evidence and guidelines and the measures remain viable for use.
- Make recommendations to the Quality Metrics Expert Panel (QMEP) regarding updates to PQA-endorsed measures.
- Make recommendations to the QMEP for the retirement of PQA-endorsed measures.

MUP Scope of Responsibilities:

- Assess recommended updates to PQA-endorsed measures and ensure that measure updates reflect current evidence, guidelines, and standards.
- Participate in the revision of PQA-endorsed measures to improve clarity, consistency, and harmonization, when appropriate, with other measures.
- Evaluate new medications that have entered the marketplace and medications that have new indications or have been discontinued, which may impact PQA-endorsed measures.

Information Required for Nomination:

- Name, Credentials, Title, Organization
- Address, Phone, Email
- Quality Measurement Experience: Please detail your experience participating in PQA panels (e.g., MUP, QMEP, Technical Expert Panel [TEP]) and highlight any other relevant quality measurement expertise
- Skills and Experience: Please describe the skills, expertise, and experience that make you a strong candidate for the MUP

- Brief Biography: Include relevant information that describes your qualifications for being a member of the MUP (Max 300 words)
- Upload resume or CV

Note: The nomination form must be completed in one continuous session, and you will be unable to save a partially completed form.

Due by 11:59 pm ET on Friday, October 30, 2026.
