

PQA Quality Metrics Expert Panel: Self-Nomination Information for the 2027-2029 Term

New Quality Metrics Expert Panel (QMEP) members will be selected to serve a three-year term (2027-2029) for a limited number of available seats. Selection will be based on experience with the Pharmacy Quality Alliance (PQA) measure development and maintenance processes and/or other subject matter expertise (e.g., clinical, analytic, measurement science, quality improvement).

QMEP members are expected to have prior experience participating in PQA groups, including the Measure Update Panel (MUP) or Technical Expert Panels (TEPs), and/or significant, well-established expertise in quality measurement. The selection of QMEP members will also consider the need for balanced stakeholder representation. It is unlikely that more than one individual from the same organization will serve on the QMEP at the same time. Current QMEP members finishing their first term at the end of 2026 may apply for a second term.

The QMEP is a standing PQA panel that meets monthly, or as needed, via Microsoft Teams. The three-year term will begin January 2027, with an expected time commitment of 24-32 hours per year, including meeting time, preparation, and electronic voting.

QMEP Objectives:

- Assess measures in development or maintenance against standard measure criteria.
- Make final recommendations to PQA membership regarding measure endorsement or retirement consideration.
- Make final recommendations to PQA staff for measure development discontinuation.

QMEP Scope of Responsibilities:

- Review draft measure specifications to advise on testing plans.
- Review testing results for measure feasibility, validity, reliability, and overall performance.
- Approve the discontinuation of measures in development.
- Approve measures to move forward for endorsement consideration by PQA membership.
- Approve PQA-endorsed measures to move forward for retirement consideration by PQA membership.
- Approve material changes to PQA-endorsed measures that are recommended by the MUP.

Information Required for Nomination:

- Name, Credentials, Title, Organization
- Address, Phone, Email
- Quality Measurement Experience: Please detail your experience participating in PQA panels (e.g., MUP, QMEP, Technical Expert Panel [TEP]) and highlight any other relevant quality measurement expertise

- Skills and Experience: Please describe the skills, expertise, and experience that make you a strong candidate for the QMEP
- Brief Biography: Include relevant information that describes your qualifications for being a member of the QMEP (Max 300 words)
- Upload resume or CV

Note: The nomination form must be completed in one continuous session, and you will be unable to save a partially completed form.

Due by 11:59 p.m. ET on Friday, October 30, 2026.
